

HEAGE WINDMILL

1797—2022

Dear Friend

Heage Windmill is now 225 years old and this year will be the 20th year of our milling here in modern times, producing stone ground flour of the highest quality, as used and recommended by The Hairy Bikers in their series

The Hairy Bikers Go North (Programme 7: The Peak District).

'The Old Lady' is feeling her age and needs to have friends around for encouragement and support. Last year we had a 'Membership Holiday', because of the limited access problems cause by the pandemic. However, now we are offering an almost normal situation and so I hope that you will continue your friendship to the mill by renewing your Friends Membership, or by taking out a new Friends Membership if you are new to the mill.

The quarterly Grist continued to appear last year and will be published this year as usual. Your membership entitles you to this publication and of course you will be able to take advantage of free tours.
